STRUCTURAL STABILITY CERTIFICATE

(Building Safety Certificate)

To,

The Chairman,

Maharashtra Shikshan Prasarak Mandal,

Chandrapur.

Sub :- Structural examination under section 265A of the Maharashtra Municipal Corporation Act, in respect of building, on land bearing no 273 / 1 at Mouza – Wadgaon (Tip), Tahsil - Wani, District – Yavatmal.

Name of Building: Maharashtra Shikshan Prasarak Mandal's Educational Building, on land bearing no 273 / 1 at Mouza – Wadgaon (Tip), Tahsil - Wani, District – Yavatmal.

I, the undersigned am the structural Engineers registered with the Municipal Council, Wani, District – Yavatmal for structural examination purpose having registered No SR-25 valid till 31/12/2025.

I certify that I have inspected the building of the Maharashtra Shikshan Prasarak Mandal's Educational Building, Wani the plans of which have been approved by the Municipal Council, Wani. I have done the Structural audit based on the visual inspection of the accessible areas of the building. Based on the visual observations, visual symptoms & manifestations shows by the structure and the data collected from site. I am of the opinion that the said structure / building is structurally sound and that its stability will not be endangered by their use as a Educational for Which structure / building is intended.

This certificate will come in force only after structure doesn't show any signs symptoms / manifestations of any distresses such as, cracks. Corrosion of reinforcement, spalling of concrete, deflection / sag in any structure members / walls, settlement of foundations / floor ground. Leakages etc. If found necessary. That structure may be inspected again and validity of the stability certificate may be modified if required.

This Certificate is valid for a period of maximum **FIVE years** and is issued on the 24/05/2022 understanding that may overall responsibility for the structural stability of the building and proper structural performance will cease, the moment any additions or alterations. Change in loads, structural changes to the structural frame are carried out without any structural engineers. Advice or by accident or due tampering by the users / occupants of any reasons whatsoever. This certificate ceased in the event of overloading or lack of proper

maintenance of structure or distress / unbalanced caused by any adjoining structure or construction activity or any such act which is detrimental to the structure.

The stability of the structure is assessed only for dead and live load and that too, based on the visual observations of superstructure and it do not cover any risk arising due to earthquake, wind, fire vibrations etc. and any other unforeseen forces causing distress and instability to the structure.

Place : Wani

Date : 24/05/2022
